JOB TITLE   **Senior Power Platform Developer**

COMPANY   **Independent Trustee Company Ltd**

Independent Trustee Company is an Irish owned company, established in 1994. We employ over 75 staff and our focus is to deliver flexible and transparent pension plans for our clients.

Over the last 2 decades, our clients have allowed us to become one of the largest providers of self-administered pension structures in Ireland. We administer in excess of **€2.5 billion** in client funds through over **6,000** pension structures. Our clients are self-employed individuals, professionals, company directors, corporate clients and financial advisors.

We pride ourselves on our high-quality service and ensure our staff have the skills and expertise to provide a highly efficient and professional service to our clients and advisors.

We are approved by the Revenue Commissioners and the Pensions Authority as Pensioner Trustee and are regulated by the Central Bank of Ireland. We are also approved Trustee Trainers by the Pensions Authority. We are one of the founding members of the Association of Pension Trustees of Ireland.

JOB DESCRIPTION

The Senior Power Platform Developer will be joining our dedicated team at Independent Trustee Company as we utilise the latest advancements in Microsoft's Power Platform to deliver effective, data-driven solutions for our solutions.

As part of your role, you will be working with modern tools and technologies, including Microsoft Power Pages, to create secure and scalable business solutions. In this role, you'll have the opportunity to design and build professional, data-powered websites using Power Pages, Microsoft's low-code platform for creating web applications. You'll also engage with other Power Platform tools like Power Automate, Dataverse, and Dynamics 365, collaborating with a team of experts to deliver valuable solutions.

You will gain exposure to all aspects of solution delivery, including business analysis, development, and end-user training, while also expanding your skills in complementary technologies like Azure, .NET, and DevOps.

The anticipated start date for this position is January 2026.

The ITC Group have made the decision to work remotely on a permanent basis. Therefore, this role is exclusively a remote working opportunity.

Applications can be submitted to careers@itcgroup.ie

SALARY

Salary is €65,000 – €70,000 per annum.

REQUIRED SKILLS & BEHAVIOURS

We're looking for a dynamic individual with a passion for technology and a proven track record in Power Platform development. While not required, the following skills and experiences will set you apart:

- Familiarity with Azure DevOps for source code management, reviews, and continuous deployment, as well as experience working in an agile team.
- Knowledge of Azure services, such as Functions and Logic Apps.
- Experience with SQL Server or other relational databases.
- Proficiency in modern web programming frameworks like TypeScript and React.
- Experience in customer meetings, requirements gathering, and documentation.
- Understanding of Dataverse integration and its role in creating seamless, data-powered solutions.

QUALIFICATIONS / EXPERIENCE REQUIRED

- 5+ years of experience in configuration and development with Power Pages, Dynamics 365, Dataverse, Power Automate and Model Driven Power Apps.
- A degree in Computer Science or equivalent.
- Proficiency in a .NET programming language, preferably C#.
- The ability to write D365 Plugins and Custom Work Activities.
- Knowledge of JavaScript, CSS, and modern styling techniques.
- Strong communication and organizational skills.
- A can-do attitude and a passion for problem-solving.
