

REA Coyne & Culloty:

REA Coyne & Culloty was established in Killarney Town in 1973. REA Coyne & Culloty is a Member of the Royal Institute of Chartered Surveyors and the Society of Chartered Surveyors Ireland. REA Coyne & Culloty is one of the founding members of Real Estate Alliance, a group of long-established, independently run, professional estate agents from all over Ireland.

REA Coyne & Culloty is located on Main Street, Killarney for over 40 years in modern prominently located offices. We work with clients all over the country in addition to a large local customer base. The firm was built on the principles of **Honesty, Trust, Integrity and Transparency**. We believe in strong working relationships with our clients which evolve through changing circumstances & continually shifting financial environment. Working in the property industry for so many years means we have an unrivalled level of property knowledge and experience and have earned a reputation for integrity and professionalism.

Susan Nolan, Deirdre Shanahan & Victoria Browne Murphy - Principally involved in the management of an extensive residential property management area of the office in addition to providing leads and coordinating activity with REA.

Letting Services:

It is a priority in our office to provide a transparent and professional service to the landlord. Our landlords are our priority; achieving maximum rents with minimum vacant periods with well referenced tenants is our objective. Our standard schedule of services are most comprehensive.

Our Letting team is enhanced by our critically important tradespeople. Rather than employ tradespeople we have independent and qualified personnel who we liaise with as required. We can assure our Landlords that any expenses that are undertaken are carried out by qualified people at fair value. We are confident that with our team of tradespeople that repairs and improvements are effected in the most cost efficient manner. More importantly this team are available for emergencies 7 days a week.
